

THE GATE CLOSER SPECIALISTS

Lokk Latch Pro SL Self Locking Gate Latch

Lokk Latch Pro SL is a commercial grade self-locking security latch for commercial gates. It operates and locks from either side, when the latch closes it locks automatically. A key is required to enter and exit. The Pro SL is ideal for gated properties, apartments, or any security conscious areas.

The lock barrel contains a 6-pin security lock and can be keyed alike (by a locksmith) to most household doors.

Lokk Latch Pro SL is manufactured with strong moulded polymer housing and stainless steel components.

The external Access Kit allows the gate to be opened and locked from both sides of the fence.

A high degree of versatility is provided for fitting the product. It is adjustable both vertically and horizontally to ensure proper fit and operation.

The External Access Kit (EAK) component of the Lokk Latch Pro SL fits on to the outside of the gatepost, street side, to provide quick and convenient key-lockable access.

Lokk Latch Pro SL fits onto posts from 28mm to 150mm. It is suitable for fitting to metal or timber, and fits both right and left hinged gates.

It is easy to install (fitting jig supplied) to the outside of the gate and fence posts and requires no welding. You only need to drill one main hole through the fence post to connect the two units for full

INNOVATIVE & RELIABLE
GATE PRODUCTS
