

THE GATE CLOSER SPECIALISTS

Magna Latch Top Pull & Vertical Pull Safety Gate Latches

Magna Latch Safety Gate Latches are the original and still the best magnetic gate latches on the market.

Designed specifically for gates around swimming pools, gardens and child care centres, they use patented magnetic technology and super-strong 'Permanent Magnets' to eliminate the possibility of mechanical jamming while closing.

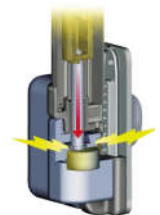

The Top Pull Model (longer version) is designed especially for swimming pool gates & the Vertical Pull (shorter version) is used for pet & general Gates, but can be installed on any gate where safety is important.

It is designed to extend above the height of the fence to keep the release knob out of reach of children and pets and is also key-lockable for added safety.

Tested to over 400,000 cycles, both models have been independently verified to meet stringent international safety codes, and have also received several prestigious design awards.

Installation is simple, with vertical and horizontal adjustment of up to 1 7/16" (37mm) allowing for quick and easy alignment on the gate as well as fine-tuning at any time to accommodate for gate sagging or movement over time.

INNOVATIVE & RELIABLE
GATE PRODUCTS

Technical Overview:

The market leader

Uses Patented Technology

Also uses Permanent Magnets

Extends above the height of the fence

Key-lockable feature

Tested to 2 million cycles

Uses Lost Motion Technology

Simple installation

With vertical and horizontal adjustment

Quick and easy to align

Easy fine-tuning for sagging or movement
